February 27, 2000

Dear Ms. Dixon:

1

[We strongly oppose the DOE proposal to ship 80,000 tons of radioactive waste across the country for 30 years. Much of this dangerous waste would move through our neighborhood, across from the front yard of our home, under the plan.

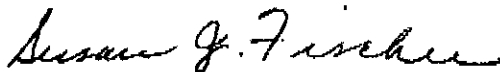

We believe the potential dangers involved do not merit moving this waste around the country, especially when a scientifically credible, permanent storage solution has not even been developed.]

Please contact us if we may clarify our position, and thank you for your consideration.

Sincerely,

Fred Fischer

Susan Fischer
